[student@workstation playbook-review]$
```

```
[student@workstation playbook-review]$ lab grade playbook-review

Grading lab.

 · Checking lab systems ..... SUCCESS
 · Ensuring httpd package is installed on serverb ..... PASS
 · Ensuring mariadb-server package is installed on serverb ..... PASS
 · Ensuring php package is installed on serverb ..... PASS
 · Ensuring php-mysqlnd package is installed on serverb ..... PASS
 · Ensuring httpd service is started on serverb ..... PASS
 · Ensuring mariadb service is started on serverb ..... PASS
 · Ensuring http service is enabled in firewalld on serverb ..... PASS
 · Ensuring the web server is reachable on serverb ..... PASS

Overall lab grade: PASS

[student@workstation playbook-review]$ lab finish playbook-review

Finishing lab.

 · Checking lab systems ..... SUCCESS
 · Clean up exercise ..... SUCCESS

[student@workstation playbook-review]$
```
